

Platform of the Socialist Party USA 2025-2027

PREAMBLE

The Socialist Party stands for the abolition of every form of domination and exploitation, whether based on social class, gender, race/ethnicity, age, education, sexual orientation, or other characteristics.

We are committed to the abolition of capitalism through the creation of a socialist society based on compassion, empathy, and respect as well as the development of new social structures.

Socialism will establish a new social and economic order in which workers and community members will take responsibility for and control of their interpersonal relationships, their neighborhoods, the local government, and the production and distribution of all goods and services.

For these reasons, we call for social ownership and democratic control of productive resources, for a guarantee to all of the right to participate in societal production, and to a fair share of society's product, in accordance with individual needs. As we pursue a socialist transformation of society, we join with others in making radical demands on the existing system: demands that challenge the basic assumptions of a capitalist market economy while pointing the way to a new society.

Although reforms will not in themselves bring about socialism, the fight for them will advance the cause by demonstrating the inherent limitations and injustice of the capitalist system. As we build the socialist movement, we organize around a platform committed to our common and interdependent struggles and aspirations.

ECONOMICS

The Socialist Party stands for a fundamental transformation of the economy, focusing on production for need, not profit. So-called fair trade is meaningless as long as the world economy is dominated by a few massive corporations. Only a global transformation from capitalism to socialism will provide the conditions for international peace, justice, and economic cooperation based on the large-scale transfer of resources and technology from developed to the developing countries.

Worker Control

The Socialist Party stands for the right of all workers to organize, for worker control of industry through the democratic organization of the workplace, for the social ownership of the means of production and distribution, and for international solidarity among working people based on common opposition to global capitalism and imperialism. We believe that the international organization of labor is the only way of combating the exploitation of workers in a global capitalist economy. Working people have no country, but rather an international bond based on class. Workers throughout the world have far more in common with each other across national boundaries than with their bosses in their own countries. Ultimately a socialist revolution must be an international revolution that cannot survive if confined to individual countries amidst capitalist imperialism.

1. We call for worker and community ownership and control of corporations within the framework of a decentralized and democratically determined economic plan.
2. We call for a minimum wage of \$25 per hour, indexed to the cost of living.

3. We demand the immediate withdrawal of the United States from neoliberal trade agreements, such as the United States-Mexico-Canada Agreement and the Dominican Republic-Central America Free Trade Agreement (CAFTA-DR).
4. We call for a full employment policy. We support the provision of a livable guaranteed annual income.
5. We call for all financial and insurance institutions to be socially owned and operated by a democratically-controlled national banking authority, which should include credit unions, mutual insurance cooperatives, and cooperative state banks. In the meantime, we call for reregulation of the banking and insurance industries.
6. We call for a steeply graduated income tax and a steeply graduated estate tax, and a maximum income of no more than ten times the minimum. We oppose regressive taxes such as payroll tax, sales tax, and property taxes.
7. We call for the restoration of the capital gains tax and luxury tax on a progressive, graduated scale.
8. We call for compensation to communities-- and compensation, re-training, and other support services for workers-- affected by plant and military base closings as stop-gap measures until we reach our goal of creating a socialist society totally separate from the global capitalist economy.
9. We call for a National Pension Authority to hold the assets of private pension funds, and a levy against corporate assets for any pension fund deficits.
10. We call for increased and expanded welfare assistance and increased and expanded unemployment compensation at 100% of a worker's previous income or the minimum wage, whichever is higher, for the full period of unemployment or re-training, whichever is longer.
11. We support a program of massive federal investment in both urban and rural areas for infrastructure reconstruction and economic development.
12. We support tax benefits for renters equal to those for homeowners.
13. We call for the elimination of subsidies and tax breaks that benefit corporations and all other forms of corporate welfare.
14. We call for a 100-percent capital flight tax on runaway industry.

INTERNATIONALISM & FOREIGN POLICY

The United States is the sole remaining global superpower. The U.S. government uses its overwhelming military power to consolidate its strategic hold over the entire world and to defend and advance the interests of U.S. owned corporations as they exploit the working people and natural resources of the entire planet. We stand in total opposition to U.S. imperialism in all its forms.

1. We call for the closing of all U.S. military facilities at home and abroad that train foreign military and paramilitary personnel.
2. We call for the United States to immediately and unconditionally withdraw all U.S. forces currently stationed in foreign territories as part of the so-called War on Terror.

We oppose the apartheid of the Israeli government and call for an end to all U.S. aid to Israel. We call for the end of the occupation of the State of Palestine and support the creation of an inclusive, secular, and democratic state in Palestine.
6. We demand the cancellation of Third World debt.
7. We call for an immediate end to U.S. military aid used to advance western imperialism and prop up US-backed dictators.
8. We call for the abolition of the Central Intelligence Agency, the National Security Agency, and all other institutions of covert warfare.
9. We call for an international treaty outlawing all weapons of mass destruction.
10. We call for an immediate 50% cut in the military budget, followed by additional cuts, with the aim of rapidly reducing the military budget to less than 10% of its current level, with the "peace dividend" directed to essential social services and to the cost of cleaning up contaminated military sites.

11. We call for the disbanding of NATO and all other aggressive military alliances, and the closing of all overseas bases.
12. We call for an end to U.S. arms sales throughout the world.
13. We call for the abolition of permanent membership on the United Nations Security Council, and an end to veto power.
14. We call for a constitutional amendment requiring a binding vote of the people on any deployment of U.S. troops.
15. We call for the United States to cease manufacturing and using Unmanned Aerial Devices (drones) for domestic and international spying and warfare.
16. We oppose the International Monetary Fund, the World Bank, and the World Trade Organization as instruments of capitalist oppression throughout the world. • Restoration of United States membership in and support for the World Health Organization and UNESCO.
17. Restoration and expansion of U.S. funding for the United Nations Relief and Works Agency (UNRWA)

People with Disabilities

The Socialist Party recognizes the human and civil rights of all, without regard to physical or psychological differences. We deplore media stereotypes that focus on a person's disability rather than on their strengths and abilities and the physical and social barriers that prevent the full participation of people with disabilities in vital spheres of life.

1. We call for full enforcement of all sections of the Americans with Disabilities Act so that all public and private buildings, facilities, and modes of transportation are accessible to disabled people.

4. We call for full funding for a network of support for people with physical, mental, and developmental disabilities, including home assistance, recreation centers, guaranteed income, voting access, and quality control in residential facilities, and for the inclusion of people with disabilities on all local and state governing boards and commissions.
5. We call for affirmative action quotas for hiring people with disabilities at union wages.

8. We call for an amendment of the Equal Credit Opportunity Act to include a prohibition against the denial of credit based on disability.

Seniors

The Socialist Party recognizes the right of seniors to a dignified life, free from economic hardship, social isolation, and discrimination in employment and credit. Sufficient income, housing, health care, medication, and access to social services must be guaranteed to all elders.

1. We demand that the Social Security system remain entirely within the public sector, with funds derived from a steeply graduated income tax on all income, earned and unearned, and said funds are used solely for Social Security and not any other purpose, such as offsetting the federal deficit.

7. We call for the election of advocates and ombudspersons by assemblies of seniors and caregivers to ensure the protection of residents' rights in nursing homes.
8. We support a person's right to die with dignity, including through access to physician-assisted suicide.

Women

The Socialist Party is a socialist feminist organization that recognizes that a struggle against habitual male dominance and patriarchy must go hand in hand with any struggle against capitalism. Therefore, we pledge our opposition to all forms of sexism, and demand equality in all aspects of life.

1. We call for a constitutional amendment guaranteeing the right to choose when, if, and how to have children, including the right to free abortion on demand at any stage of pregnancy, without interference or coercion.
2. We call for the repeal of the Hyde Amendment and all other legislation that limits access to abortion services, thus denying "the right to choose" to millions of women, particularly low-income women, women of color, and young women.
3. We demand full reproductive freedom for all women by removing all discriminating barriers to reproductive rights and reproductive health care.
4. We call for the banning of all involuntary sterilizations. We oppose the performing of any medical research or medical procedure without a woman's full knowledge and consent.

Youth

The Socialist Party believes that the right of all children to nurturing, protection, and education by caring adults must be staunchly upheld, and that a young person does not have fewer rights because he or she is a minor. 1. We support the immediate ratification by the United States of the UN Convention on the Rights of the Child.
2. We call for children's allowances that will help ensure that every child's basic rights and needs are satisfied in a stimulating, empowering, and caring environment. SERVICES & INFRASTRUCTURE

Arts, Culture, & Recreation

The Socialist Party believes that art is an integral part of daily life, and should not be treated as a commodity produced by the activity of an elite group. All members of society should have ample opportunities for participation in art and cultural activities.

1. We call for the transitional demand for the immediate abolition of all private health insurance companies through the creation of a single-payer health system. We see single-payer as an important step towards a fully socialized national health program with full medical, dental, vision, and mental health coverage for all. This system would be publicly funded through progressive taxation and controlled by democratically elected assemblies of health care workers and patients. The National Health Program should improve, and replace, Medicare and Medicaid.

Free & Fair Elections

The Socialist Party stands for political activity independent of the two major corporate parties. We view electoral activity as an important component of the struggle for fundamental social change. Participation as socialists in local, state, and national elections is a valuable way to clarify our position on a wide range of

issues, of broadly disseminating our principles and programs, and of asserting and reaffirming our commitment to the democratic process. We believe that capitalism is fundamentally incompatible with democracy and that true democracy can only be achieved with society's transformation to socialism.

Media & Intellectual Property

An ever-smaller band of huge corporations controls virtually all news and entertainment media. The Socialist Party stands for the right of ordinary people to express opinions and communicate freely by vastly extending the public sector of all forms of mass media. Ultimately, a genuine democratization of the mass media will require a socialist transformation of society. Within such a society, free expression will flourish, allowing for the broadest expression of viewpoints and perspectives.

1. We support the breakup of large media companies so that no one company or individual owns more than one newspaper, radio or television station, or television channel.
2. We call for the re-regulation of the communications industry, including the assertion of public ownership rights over radio and television frequencies.
3. We call for government ownership of satellite and cable companies, with revenue generated by these operations allocated to a publicly controlled fund to finance visual and audio programming, over-the-air radio and television, and cable and satellite programming.
